- Mueller Company
- Southern Illinois University at Carbondale
- Southern Illinois University at Edwardsville
- United Contractors Midwest
- Village of Glen Carbon
- Village of Greenville
- Village of Swansea
- Worldwide Technology Raceway
- City of O'Fallon

Most of these users chose the TYMCO product over the competitors units based on productivity, durability and efficiency through live demonstrations conducted at their facilities, on their city streets. I can provide names and contact cell phone numbers for any of the above users upon request.

They also do training of the equipment that OSHA look for during the evaluations with the city. All models are first come, first serve. Many cities are looking for newer models also.
