Luanne - I would like to add information to our variance request. This is a link to the brochure for our boat that details the size including the 12'8" height when on the trailer and 37'9" of length when on the trailer. Could you print it out and add it to our request for variance?

Thank you, John

Your request for a variance to build a non-compliant garage on your property will try to be scheduled for the June 4th meeting.

There was not enough time to process all the requirements for the May 2nd meeting. The letters to individual property owners within 250 feet of your property could not be accomplished by the time the notice had to appear in the paper.

All letters and notice had to be received or published 15 days before the meeting.

We have ample time for the June meeting now that I have your petition and fee paid and can proceed.

I will contact the chair so that the board can be canvas to see if there will be a quorum for the meeting on that date.
